PRINTER KIOSK

PrinterKiosk

Self-service local printing

PrinterKiosk is a cloud printing service that facilitates local printing from any PC or smartphone, without the need for a personal printer or creating a user account.

By connecting to the PrinterKiosk platform, users can easily locate a nearby printer through the PrinterKiosk Point network. These points offer a high-quality printing service that is fast and easy to access.»

Print nearby safely
24/7

Find a printer
City, address, zip code
or   Locate me

How it works ?
On computer or smartphone

2. I send my file
by sending an email to a printer

3. I open
PrinterKiosk confirmation email

4. I move to the printing point
I pay and print

Key Features

▷ Simplified Printing Without Hassle: Printing is done by simply sending an email, with no app installation or account creation required.

🔒 Guaranteed File Security: Documents are protected and automatically deleted after 24 hours, ensuring complete confidentiality.

🚶 Accessibility and Proximity: A printer is always just a click away, easily locatable for quick and convenient printing.

📄 Supported Formats: Printing is compatible with the most common formats, eliminating any compatibility issues

💳 Flexible and Convenient Payment: Various payment options are available, allowing each user to choose what suits them best.

🖊 Economy & Eco-Friendliness: Fewer personal printers and consumables, thanks to on-demand printing.

⚙ Quick Setup: Online configuration of PrinterKiosk Points ensures rapid visibility and an optimal user experience.

📊 Clear Operations Tracking: A detailed dashboard dedicated to the operator allows precise monitoring of all transactions for optimal service management and profitability.

User journey

1. Find a printing point on the map at www.printerkiosk.com or go directly to a PrinterKiosk partner location.

2. Send your files by email to the specified address.

3. Visit the selected PrinterKiosk partner Point after sending the email.

4. Enter the secret code received by email on the CMprint at the PrinterKiosk partner location to start printing.

5. Use the contactless card reader integrated into the CMprint to **pay** with your credit card, smartphone, or optionally with coins.

Spécifications

|
